PROFILE

Bachelor's degree in Informatics Engineering with 1+ year of combined internship experience across software development and data-related projects. Experienced in developing and maintaining applications, building RESTful APIs, managing databases, and supporting data analysis and reporting activities. Skilled in JavaScript, SQL, RESTful API, database management, data analysis, and application testing, with strong analytical and problem-solving abilities. Seeking to apply technical and analytical skills to contribute to effective technology solutions while continuously learning and growing in a dynamic professional environment.

EDUCATION

Universitas Esa Unggul – ***Jakarta, Indonesia*** *Aug 2021 – Feb 2025*

S1 Teknik Informatika – IPK 3.92

Thesis title: Implementation of Deep Learning Algorithm for Cataract Severnity Detection in Eyes

Relevant subject: Data Warehouse, Artificial Intelligence, Software engineering, Web Programming, Database, Statistics, Data Mining, dan Machine Learning

EXPERIENCE

Internship - ***PT Sinergi Informatika Semen Indonesia*** *Oct 2025 – May 2026*

Developer Tech

- Developed and maintained 20+ RESTful API endpoints and 4 dashboard API endpoints to support application functionality, system integration, data monitoring, and business reporting.
- Managed PostgreSQL databases, including table creation and modification, SQL queries, CRUD operations, and data troubleshooting to support application requirements.
- Identified and resolved 25+ application bugs through debugging, testing, and Git-based version control, improving application stability and data reliability.
- Integrated Firebase Cloud Messaging (FCM) across 10 notification features and collaborated with Functional, QA Engineers, and Developers on feature development, testing, deployment, and maintenance across 2 PROCSI application projects.

Internship - ***PT Bank Negara Indonesia Tbk.*** *Feb 2024 – Jun 2024*

Data Analyst - Retail Productive Banking (Xpora)

- Managed and analyzed data for 50+ fostered MSMEs to support program monitoring, reporting, and evaluation.
- Created 20 product catalogues featuring fostered MSMEs for an exhibition event in South Korea, organizing product and business information to support international market exposure and buyer engagement.
- Prepared and maintained Excel-based reports and data records to support data processing, reconciliation, and program reporting.
- Designed a Figma dashboard prototype and conducted data and business research to support analysis and management decision-making.

Studi Independen - ***Bangkit Academy 2023 Batch 2*** *Aug 2023 – Jan 2024*

Cloud Computing

- Contributed to the development of the VisitCampus application, supporting application development and data management processes.
- Developed 10+ RESTful API endpoints using JavaScript and Express.js to support structured data exchange between application services.
- Created and managed 15+ SQL database tables to organize and maintain application data in a structured manner.
- Supported application deployment using Google Cloud Run through a Docker-based workflow.

ORGANISATION EXPERIENCE

DPMF (Dewan Perwakilan Mahasiswa Fakultas) - ***Universitas Esa Unggul*** *Feb 2023 – Feb 2024*

Staff Komisi 3 Aspirasi

- Contributed to the development and implementation of programs aimed at collecting and addressing student aspirations at the faculty level.
- Facilitated communication between students and faculty leadership, ensuring that student concerns and feedback were effectively conveyed to department heads and deans.
- Supported initiatives that improved engagement and communication between students and academic stakeholders.

DPMU (Dewan Perwakilan Mahasiswa Universitas) - ***Universitas Esa Unggul*** *Feb 2023 – Feb 2024*

Staff Komisi 2 Kelembagaan

- Participated in the planning and execution of the university-wide Student General Election (PEMIRA), collaborating with multiple student organizations.
- Assisted in coordinating the election committee to ensure the successful implementation of election activities and timelines.
- Collected, analyzed, and compiled student aspirations and recommendations to be presented to relevant university stakeholders for evaluation and decision-making

Komisi Pemilihan Umum Kampus - ***Universitas Esa Unggul*** *Feb 2023 – Feb 2024*

Ketua Pelaksana

- Led and coordinated the organizing committee in conducting the university-wide Student General Election (PEMIRA), ensuring all activities were completed effectively and on schedule.
- Oversaw the planning, execution, and evaluation of election activities, contributing to a smooth and well-organized election process.
- Initiated and chaired hearing sessions to establish election regulations and procedures, promoting transparency and accountability throughout the election process.
- Successfully coordinated cross-functional teams and stakeholders to ensure the achievement of election objectives and compliance with established guidelines.

SKILLS

Hard Skills :

- Able to manage cloud infrastructure using platforms such as Google Cloud Platform (GCP)
- Able to operate Microsoft Office (Word, Excel and Powerpoint)
- UI/UX design using Figma
- Web development using Laravel and Express.js frameworks.
- RESTful API development and integration, including Firebase Cloud Messaging (FCM).
- Database management using MySQL and PostgreSQL.
- Version Control: Git
- Programming Languages: JavaScript, Python, PHP, SQL, HTML, and CSS.

Soft Skills :

- Analytical Thinking
- Problem Solving
- Critical Thinking
- Communication
- Teamwork & Collaboration
- Time Management
- Adaptability & Continuous Learning
